## SUMMARY

---

Aspiring Software Developer with hands-on practice in Python and foundational knowledge of Java and OOP. Actively strengthening problem-solving skills and preparing for real-world development projects

## TECHNICAL SKILLS

---

- Languages: Python, Java
- Core Concepts: OOP, loops, functions, basic DSA
- Web : HTML, CSS
- Tools: Git, GitHub, VS Code

## PROJECT

---

- **YouTube Video Downloader Website** [ [GitHub](#) ]

*Tech Stack: Python, Flask, HTML, CSS, Docker*

- Developed a full-stack YouTube downloader using Flask APIs for video processing, validation, and error handling, with a responsive HTML/CSS frontend and Docker-based deployment.

## EDUCATION

---

|                |                                                                                                                                                                         |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2023 – Present | Bachelor of Technology (B.Tech) – Computer Science Engineering<br><i>Technocrats Institute of Technology, Bhopal</i> CGPA (up to 4 <sup>th</sup> Semester ) : 7.41 / 10 |
| 2021 - 2023    | Senior Secondary (Class XII) – Bihar School Examination Board<br><i>Government Inter College, Dalmia Nagar</i> Percentage : 72.4 %                                      |
| 2020 - 2021    | Secondary (Class X) – Central Board of Secondary Education (CBSE)<br><i>St. Paul's School, Sasaram</i> Percentage : 83.8 %                                              |

## CERTIFICATIONS & ACHIEVEMENTS

---

- Solutions Architecture Job Simulation by **AWS** – Forage (December 2024)  
*- Designed a scalable cloud hosting architecture through real-world infrastructure scenarios and system design tasks.*
- 5-Day AI Agents Intensive Course – **Kaggle x Google** (December 2025)
- Python Coder Badge – **Kaggle** (November 2025)

## SOFT SKILLS

---

- Debugging mindset • Clear technical communication • Attention to detail in implementation
- Adaptability • Time management
