SUMMARY

Aspiring Software Developer with hands-on practice in Python and foundational knowledge of Java and OOP. Actively strengthening problem-solving skills and preparing for real-world development projects

TECHNICAL SKILLS

Languages: Python, Java
Web: HTML, CSS, Flask
Databases: MySQL
Tools: Git, GitHub, Docker, VS Code
Concepts: OOP, Data Structures

PROJECT

SYNO – Voice Controlled Desktop Automation Assistant

Tech Stack: Python, SpeechRecognition, Text-to-Speech, Automation Libraries

- Developed a voice-controlled desktop assistant that processes speech input and executes system commands.
- Implemented wake-word detection and a memory module to store and recall user information.

Resume Analyzer

Tech Stack: Python, Flask, NLP, Bootstrap

- Built a resume-job matching platform using skill extraction, cosine similarity scoring, and adaptive weighting logic to evaluate compatibility and identify missing competencies.

EDUCATION
